

Step-by-Step Guide to Pushing Back on Illegal Mandates in K-12 Schools

Dear Concerned Families:

We are happy you found us. **Right now, *have to join together in pushing back and asserting our rights and the rights of our children to make our medical choices and protect the rights of parents to take care of them.*** Below are *suggested* steps for standing up to your child(ren)'s school's illegal mandates, and protecting your child(ren) from further harm:

1. Go to [FLTJ RESOURCES](#) page and download:
 - a. **FLTJ Letter from Parents Opposing PROPOSED Vaccine Mandates:**
<https://fltjllp.com/resources/>
 - b. **FLTJ Questionnaire / Letter of Due Diligence to K-12 re: Mandates:**
<https://fltjllp.com/wp-content/uploads/2021/09/Letter-of-Due-Diligence-Counter-Offer-K-12-Students-Staff.pdf>
 - c. **FLTJ Cease and Desist to LAUSD:** <https://fltjllp.com/wp-content/uploads/2021/09/Cease-and-Desist-to-LAUSD-re-Vax-Mandate-12-to.pdf>
 - d. **FLTJ Cease and Desist to Piedmont Unified School District:**
<https://fltjllp.com/wp-content/uploads/2021/09/tPiedmont-CD-FINAL-9.21.21.pdf>
2. **SHARE THESE LIKE A WILDFIRE.** The reasons we have spent so much time developing these resources is to *educate and empower you so that you can empower and educate each other and together fight off these illegal mandates and attempts to steal your rights.* It will also help you identify like-minded families and remind you that *you are not alone and we are the majority.*
3. **Tailor** the Parents Letter to your voice and circumstance, and **deliver** it with Cease and Desist Letter(s) and Questionnaire **to your school's principal, Superintendent, and Board members by hand, mail, and/or email.** These will put the District and school on notice that you know they do not have legal authority to mandate these requirements, that your child(ren) will not be complying with them in order to attend school, and that *you cannot agree until they provide you with material information necessary for you to make a free, knowing, and informed decision to accept the terms of their proposal(s).* It will put the burden back on the school and free you to continue to conduct yourself according to the status quo unless and until you receive this critical information necessary for you to make a voluntary, informed decision.
4. If the school asks you about your child(ren)'s vaccination status, **do not respond, do not sign anything, do not test, and do not consent and opt-into the system,** even by "opting out." They will treat your child(ren) as unvaccinated; however, the point is not to agree to, provide, or enter into their digital database and tracing system.
5. If you do not want your child(ren) to mask or test, **send a note to your school's Principal, Nurse, your child(ren)'s teacher(s), and any other administrators involved in enforcing these requirements that you do not consent.**

- a. Both are emergency use authorized, cannot be mandated, and require informed consent under federal law.
 - b. Further, educators cannot refuse to give your child(ren) in person instruction *unless your child(ren) presents based on facts a “clear and present danger.”* (Education Code §§ 48213, 48900). A healthy, smiling child does not meet this standard. Furthermore, a healthy person cannot be quarantined. (See 42 U.S.C. § 264, 42 C.F.R. §§ 70, 71; *In re Application of Arata* (1921) 52 Cal. App. 380).
 - c. See this video for details: <https://rumble.com/vm96w0-see-my-smile-campaign-instruction-video.html>
6. If the school informs you that your child(ren) must submit to tests, masking, or the shot in order to attend school, you have several options:
- a. **Resubmit your letters with a request for an in-person meeting.** This time you will bring all the likeminded families you have now identified to participate in this meeting with you. #STRENGTHINNUMBERS to #RISEUP!
 - b. If the school refuses or does not respond, **hold a meeting on campus anyway or design another way to have your voices heard.**
 - i. See this guide how to lawfully exercise your First Amendment right to speak: <https://www.aclunc.org/our-work/know-your-rights/know-your-rights-free-speech-protests-demonstrations>
 - c. **Do not un-enroll your child(ren), but keep them home from school on the same days as other families.**
 - i. *You MUST promise to support those who cannot otherwise physically or financially afford to do this.*
 - ii. You MUST communicate, speak with, and support ALL families who oppose these mandates. After all, we are #allinthistogether!
 - d. **Pull your child(ren) from the school and create a new school with the families and teachers who are also against mandates who are willing to or have left;** or
7. While you continue to exercise your and your child(ren)’s statutory and constitutionally-protected rights *break this system, we will be filing a lawsuit* against the most offensive policies and Districts to get an emergency order preventing the District from enforcing it.
- a. **PERK, the Protection of the Educational Rights of Kids, Organization** has generously offered to be the Plaintiff in our lawsuit(s) to:
 - i. Protect your child(ren)’s anonymity and privacy,
 - ii. Streamline the litigation process, and
 - iii. Assist with fundraising.
 - b. **You do not need to pay to support this effort;** however, our goal is to raise **\$350,000.00** because *the more money we raise, the more districts we can sue.*
 - i. We recommend a \$250 donation; however, any contribution – big or small, one-time or recurring – will help tremendously.
 - c. Also, **Children’s Health Defense is matching donations through October 31.**
 - i. CA-CHD’S and PERK’s donation portals are being fortified for safe donations. In the meantime, please donate on our page and note “K-12 Vaccine Lawsuit” in the notes: <https://fltjllp.com/contribute/>

As protective parents ourselves, we all share your outrage at what is happening to our children under guise of public health, and we will do everything in our own power to defeat these illegal, unconstitutional, and unethical mandates. We hope these suggested steps are useful in helping you push back against your school, district, teachers, and anyone else threatening the health and safety of your children. These should all be considered in addition to, *and concurrently with*, any other peaceful, non-compliance measures that you as parents may decide to do with other like-minded families, and we look forward to hearing about the progress you achieve as a result.

In Service and with Gratitude,
The Facts Law Truth Justice Team
